No tests in the middle of the night in consideration of the participants in the CSEPP program in this area.

One originator for the entire state in April, July, and September.

Information not provided by the local area.

¹ The April test will be part of the state's earthquake preparedness drill. Since that will occur in the daytime, March
The preparedness drill will occur between 9:45 AM and 10:00 AM. (The date and time are determined

² The September test will run as part of the NWS tsunami communications test for the west coast and Alaska and
(The date and time are determined annually by the National Weather Service and the state EMD.)

< Nighttime tests must run between local sunset and 8:30 AM.

< Nighttime tests are no longer scheduled in the middle of the night so people with weather radios will not be disturbed by

< This schedule deviates from the originator schedule in the state plan so that local areas are not responsible for all

< The State DEM will not activate in the middle of the night in consideration of the participants in the CSEPP program.

< The NWS will not activate in the middle of the night in consideration of those people who are alerted by the tone alert

< Exact times are shown. This will help traffic, programming, and operations departments prepare for the incoming tests.

< The April, May, and September tests deviate from the standard test pattern (day/night, first full week of the month) due to
September.

< The May the RMT will be part of Pierce County's annual lahar test. (1st Tuesday of the month, 10 AM, Central Puget

< NWS will originate in September because it is "Weather Radio Awareness Month", the month of the NWS

< The October test coincides with a FEMA-required activation and survey of tone-alert radios in Franklin and Benton

< Broadcast stations and cable systems have 1 hour to forward an RMT after receiving it.

< No tests scheduled at 11AM on Tuesdays due to the regular EMD weekly test.

< No tests scheduled at Noon on Wednesdays due to the regular NWS weekly test.
